The Senator Question.

The Madison Argus, in the course of a spasmodic article upon the Schator question, says, modic srticle upon the Senator question, says,
Singularly enough, black Republican papers
such as the Free Democrat and Sentime!—which,
before Judge Doulittle's election, denies eligbility, but now assert it, and who are now abusing Lt. Gov. McArthur, for the same act that the
black Republican speaker of the New York Assembly performed; cite the New York constitution to prove that Sickles was ineligible: and
that because Sickles was a Democrat, the Damotion to prove that Sickles was neeignbe: and that because Sickles was n Democrat, the Democratic papers of this State are very inconsistent to denounce Judge Doolittle as Ineligible, (the very thing they did before his election,) and to decounce the Boundliess manufacture. denounce the Republican members as violators of the constitution in voting for him.

So far as the Sentinel is concerned, the above is an entire misrepresentation. We never cited the Constitution of New York for any such purpose, nor abused Lt. Gov. McARTHUR for deciding as Speaker Littlejoun did. It was because Mr. MCARTHUM did precisely the reverse, that we censured the act and denounced, as it deserved, the usurpation.

Nor has the Sentinel changed its ground or iota on the Senator question. We hold precise ly the same opinion now, that we held and expressed "before Judge Doolitring election." We never doubted that if the Legislature saw hi to elect him, the United States Senate would admit him. But we have always maintained that the Constitutional proviso should be a bar t his becoming a candidate and to members of the Legislature voting for him. Of that, however, the members had the exclusive right to judge for themselves, and having so judged and decided, it does not lie in the power of any Licut. Governor, Speaker, or other temporary presiding officer, to reject their votes and refuse to certify to the result of the election. As well might the Lt. Governor arbitrarily refuse to entertain motion, to sign a bill, or to do any other at devolved upon him by his office. But he is not the first Sham Democrat who has tried to play the Autocrat. ..

OUR CITY CREDIT. In the American of yesterday morning we find the following paragraph : The New York Times of Saturday la-t

The February Coupons on the Bonds of the City of Milwaukee, issued for School purposes are paid by Duncan, Sherman & Co. We notice the fact, as some delay in making the proper remittance occurred at the beginning of the Mooren."
No oversight should ever occur in promptly meeting the credit of this city, or confidence will be shaken in our securities.

We copied, several days since, from the N. Y. Tribune, a statement that provision had been made to meet this interest, and that the coupons would be paid on presentation; at the roffice DUNCAN, SERRMAN & Co. We are further assured by the City Comptroller that there was no " oversight," or "delay" on the matter, except on the part of Uncle Sam's mails, A draft for the amount was forwarded to & Co., five days before the Coupons fell duc three days being the usual time for the mails t take between New York and Milwaukee. Me. sis' DURCAN, SHERMAN & Co. were advised, by telegraph, of this draft; and requested, in case it, was in delayed the road, to pay the Coupons on presentation... They were further requested to "reply, if not satisfactory." Receiving no reply, the Comptroller naturally inferred that it was all right. It is possible that the despatch, as well as the draft, was delayed on the way ; the storms having interrupted the telegraph, as well as the mails. The only mistake was in not allowing a larger margin for possible mail detentions.

The News Blundering Again. The News of yesterday, taxes Gov. BASHFORD with violating his oath of office and trampling years of active service as a State Geologist, here upon the Constitution, by the appointment of and elsewhere, are offered to this State for \$30, ex-Senator Tarton, of Sheboygan, as one of the 000, of which only some \$4,000, perhaps, will be Revisors of the Stazutos, in place of BILLE W:1- required to be paid this year, and the balance to LIAMS, resigned. In this, as in the parallel be paid in the course of five or six years. Such case of Judga Porezz, the News has raised an opportunity to secure a large and really valua false alarm. The article in the Constitution to which it refers reads as follows:

(Art. IV, Sec. 12.)

No member of the Legislature shall, during the term for solid he was elected, be appointed, ar elected to any civil office in the State, which shall have been created, or the emoluments, of which shall have been increased; during the term for which he was elected.

Neither Judge Porran, nor Senator Taylor was appointed. during the term for which he was elected," and neither, therefore, is obnexious to the objection raised by the News. To make out its case, the News misquotes the Constitu tion ; as it did the decision of Speaker Littles ons, other day, to justify the usurpation of Lt. Gov. McARTHUR. And with due regard for consistenor, the News, in both instances, persists in its misrepresentations.

A Protest from an Outsider. The Oshkosh Courier, one of the leading par ty organs up North, thus demurs to the recent caucus proceedings of the Democratic minority

in the Legislature: The Democratic members of the Legislature The Democratic memoers of the Legislative have been amusing themselves, by making caucus nominations for Federal appointments in this State. The following nominations: were determined upon at a caucus held on Thursday even-

ing last: For U. S. Marshal-Henry M. Billings, of For U. S. District Attorney-Hon. D. A. J. Up;

ham, of Milwankee.
For Collector of Port of Milwankee-Maritz
Schosffler of Milwankee.
The nominations for the balance of the offices will be determined upon in a few days, if not sooner. The President and Senate will no doubt

make all convenient haste to register the edicts of our legislative solons at Madison. All very well, Mr. Courier : but if it be true

as the backers of the lucky nominees confidently assert, that Mr. Buguasan has a rendered it advanctbe appointing power, and promises by letter, that these who received these " caucus ommendations should have the offices, w don't see that your protest avails much.

STATE CONVENTION.—We publish to-day the call of the Democratic State Central Committee, for a State Convention to meet in Madison, on the 4th of March, to nominate a candidate for Chief Justice, in place of Hon. It ought to contain full sets of Niles Register, the Madison Papers, Benton's Abridgment of the Congressional Debates, besides numerous other works of the kind, none of which it has now. The annual meeting of the Pionee's Associa-tion of Wisconsin met at the Baptist Church, in this city, on the 11th of February, 1857. About thirty Pioneers assembled, when Hon. Henry S. It is capable of driving almost any amount of machinery, and is situated in the heart of the lumbering district. Its value is variously estimated at from \$200,000 to \$1,000,000. We have obtained a brief synopsis of the history of the progress of this cause, believing is will be of general interest to the people of this State, who have long been familiar with its title. It is also a fine instance of the "law's delay." The suit was commonced in Crawford County on the Sth, of October, 1848. Besides Cushing, Bohert Rantoni, a has not changed much since the deluge, and thus far in the history of the human race, all senproved better than moral sunsion in deterring human heart, pronounced to Noah His law for the punishment of murdater "Whose sheddeth man's blood, by man shall his blood be shed."

That have has ever since prevailed in all civilized attice, and the reason of it is obvious. The fear of death is the most powerful motive which influences man. Writers may speculate as they God, who created man, and who knows the charge of venue to Dano Co. In July 1831, the cause went to a final heering between Hungerford and Cushing—the former having previously dismissed his bill as to all the other defendants—and Judge Hubbell made a decree in favour of Hungesford, From this decree Cushing appealed to the Supreme Court. MISSIONARIES IN THE PACIFIC.—The N. T. Observer tells us that there are in the islands of the Pacific Ocean, in connection with the Lon-don Church, Wesleyan, and American Missionnon Church, Westeyan, and American Mission-ory Societies, 119 missionaries, 40,929 communi-cants, 239,900 professed Protestants, and 54, 708 pupils. The largest single Protestant church in the world is on one of these islands. Chris-tian missions here, but this tian missions have had their greatest triumphs among the heathens of this ocean world. CONTRADICTIONS .- THE DUCKESS OF ATHOLI

CONTRADICTIONS.—THE DUCHESS OF ARTOLI.
The Rev. Dr. Cumming has addressed the following letter to the morning papers:
A paragraph has appeared in most of the newspapers, stating that the Duchess of Atholi has been received by Dr. Manning into the Roman Catholic Church. In a more diluted form, I read it in second of the Roman Catholic organs also the in several of the Roman Catholic organs also. I have authority for stating there is no faundation whatever for this report. It may also be well to state that it has become a policy, not unworthy of Ignatius Loyola, as I have observed in other instances many of which are totally deroid of truth.

ANOTHER .- The Rev. Henry de Romestin ANDIBLE.—The Rev. heary as Romestin writes to a cotemporary, requesting to have it stated that he is not a member of the Church of Rome but of the Church of England, adding that his "conviction of the truth of the claims of the latter against those of the former is stronger at this time than it has been for several years past."—Gospel Messenger.

The subject of over grown Parishes, is being discussed in the Episcopal Church. The following extract upon the subject is from one of their

leading papers, the Banner of the Gross: leading papers, the Banner of the Gross:

Who can suppose that a city congregation of a thousand souls can be properly fed and cared for by a single presbyter, even with the aid of an inexperienced deacon? Who can suppose that a country congregation of a few hundred, covering a vast extent of territory, can be properly fed by a single unaided presbyter? Who is ignorant that many of our bishops are litterally examples to thousands of their cures, and work norant that many of our bishops are litterally strangers to thousandsjof their cures, and work down by their overgrown dioceaes? There is, we believe, an unspeakable import and moral nerve in that word, Shepherd of the flock, and the knowing each sheep by name. And until we can discover and apply the remedy for the removal of this evi—the almost entire obliteration of pastoral office as a thing of practical power—we shall have to deplore a balfawakened, drowsy, inert laity. The church must come back to small dioceses, and each diocese must have a treasury out of which to sustain weak pasishes in a regular ministration of the word. The wide of slation and poun of power, which peasees in a regular intestration of the work. The pride of station, and point of power, which dovets large congregations and superb houses of worship, that soon weigh down the energies of the strongest, and bring to premature decay the overworked faculties of the most gifted, must be renounced in a spirit of self-sacrifice. We do not get near enough to the hearts and conscienes of our people; we do no know enough of the inner workings of their spiritual being, and we cannot, as things now are. We languish because of this sad estrangement. The very cause, that of this sad estrangement. The very works thus disastronely on us, in our ministra-tions, works alike fatally on our people. Not often drawn together for work in the cause of onten grawn together for work in the cause of God, they scarcely know one another. They know but little of that fellow feeling which ought to exist between the members of the same body—such fellow feeling, 23 working together in close consolidated bands, would produce. To close consolidated bands, would produce. To close consolidated bands, would produce. To arouse the lairy, and call out their powers and faculties of usefulness, we must bring to bear the pastoral office, and that can only be done by drawing into narrower circles the sphere of our

Attention is being drawn in various religious papers to the spurious charity alluded to in the ollowing letter to the New York Churchman :-

To the Editor of the Churchman:

Str.—Well may you say, with reference to the late Charity Ball, that "some people have queer ideas of charity!" I, for one, am beginning to find this out, and you shall see how. I have a wife and four daughters, who must all, of course, gc to the aforesaid ball, because, torsooth, it was for charity. Well, and what think you this charity of theirs has, now that the bills have come in. cest for their dresses, decorations, and the like? Why, just \$365! The tickets, in which I suppose the charity all resided, was a mere nothing to this; and besides, as they are all laid up with sore throats, influenzs, and rheumatics, there is a prospect of a further good round sum to pay for the doctor's bill. Put all down, including coach bire and such like, at \$400, not one cent of which could by any chance whatever go to the charity, although, of course, they will tell you it was all expended in its cause! But to be truly charity, I now see all this money that was expended on To the Editor of the Churchman: expended in its cause: But to be truly enamin, I now see all this money that was expended on so much vanity and dissipation, should have been given to the charity fund. To spend \$400 that a charity may obtain some fractional part of \$20 reminds me of Sir John Falstaff's twopenny

a charity may obtain some fractional part of \$20 reminds me of Sir John Falstaffs twopenny worth of bread to his gallons of sack. I make no more pretensions to religion than my neighbor, but I think if this be charity, why, charity

Our Breadstuffs Exports. The following table shows the valuation of breadstuffs sported from the United States annually since 1821. I will be seen that from 1821 to 1842, a period of twenty-one ears, the lacrossed value of our breadstiffs expo earless than five millions of Hollars. In 1847 and 1854 the years when our exportation was the largest previous to 1316, there were short crops in Europe, which fact exlains the great exportations at those times. The amoun f breatstuff exported is now second only to cotton in rator:

The reptor contended that, as his contract was made in lew York, the law of that State, restricting the rate of interest to 7 % cent governed, and rendered the acceptance void, for usury. The Court held otherwise, and that the law of New York only applied to the rate of aterest which the acceptor should pay by way of dam

HOWLAND'S NEW ENGINE. - We hope that the Council will decide to take and pay for this new fire engine. It is a very powerful machine and calculated, in good hands to render most effective serving. We do not a lieve that an engine of equal capacity can be pur-abased at the East and brought here for a less seem than Mr. Howsam saks for his ranchine. Indeed, the actual cost of the engine to Mr. Howsamb is just about what he cose or the entry to pay. If our Council do not deside to buy

Too SLIGHTLY BUILT:-The wooden staircase receilly erected on the east aids of the Market, leading to the Hall in the upper story, seems to us too slightly bells. In case of any sudden penie, or great rish for egress, there would be danger of its giving way under the pressure of the crowd. The means of exit and en-trapes, in all large public collidings, ought to be secure, as well as sufficient, for all emergencies:

FRISIE above mill was patented by Charles Learett, Al of Ill., seb. 27th, 1855. This mill took the first premium at the Chie State Fair, 1856, over all other mills, and curring the tairs of the rall of 1856, the first premium are many others in the State Fairs of Ohio New York, Teanessee, Michigan and Minnesota, size, at the County Fairs of the following Counties of Ohio and Indiana, Wayne, Knox, Montgomery Clara, prie, Lorain, Richland, Wayne, Knox, Montgomery Clara, prie, Lorain, Richland, Plym. with diar-tex, Cheeter, Freieriek, in Indiana, Tippees and, Jeffrago, Wayne, Fayette, Shelby, Jennings, Warren and Foodraim.

Farmers, Saw Mill owners, Livery Stable men and all others feeding stock of any kind are invited to examine the merits and superier anvantages of the above mill. The Young America will grain as much eoral in the colassisted corn, oats, barley, and all other grains for stock as any mill of the same size and with much less draft.

What we claim is great strength, Carability and simplicity, being so simple that a child can learn to grind with safety.

In the next we claim the small expense to renew the grinding parts of the mill, and the case with which the grinders are put on the 10th, at a cost of not over three dollars, which makes it superior and more concentration and work of the hardest of can trong as hard in fact as east steel can be tempered, Each set will grind from 5,000 to 10,000 bushels of grain, with proper bagge. Besidesthe act of grinders on the mill, an extra see will be sentiable and of the estimation in which the Young Americal held in Ohio, we would state that during the fall, winter and spring of 1855-56, 1500 were made and sold in Ohio, at Zenesville, by Douglas Smith & Oo., Hall & Allen of Mansaelds Plais.

At this time there is not best than 900 being sold every week in Ohio, at Tensivile, by Douglas Smith & Oo., Hall & Allen of Mansaelds Plais.
